

OUR LUNGS ARE DELICATE

Overwork, lack of fresh air, mental strain or any sickness disturbs their functions. Stubborn coughs tear and wear the sensitive lung tissues.

SCOTT'S EMULSION

should be taken promptly for hard coughs, unyielding colds, or when strength is lowered from any cause. Its high nutritive value creates resistive force to ward off sickness. The rich cod liver oil improves the quality of the blood to relieve the cold and the glycerine is soothing and healing to the lung tissues.

Refuse Alcoholic Substitutes Which Exclude the Oil.

YOUR TRACTOR COSTS MONEY

But it is money that will return a big yield—if you safeguard your investment. You can lengthen the life and increase the efficiency of your tractor by using

STANOLIN D GAS ENGINE TRACTOR OIL

For the lubrication of cylinders and external bearings. It means a smoother running tractor, more power at the draw-bar, and less time out for repairs.

Best for the tractor because it's made for the tractor.

COMFORT WITHOUT EXTRAVAGANCE

Do You Dread Hot Weather?

Does it cut your energy, disturb your stomach or bring you near prostration? The well man isn't afraid of heat. But it is trying on the weakened body.

BUILD UP YOUR STRENGTH

Get your digestion in order, remove all irritation, dispel all stagnation. Put yourself in shape to enjoy the summer with a good tonic.

PERUNA INVIGORATES

It restores the perfection of digestion and removes the inflamed conditions (catarrh) that make you weak. It freshens the blood, steadies the nerves, and supplies just what you need to enter the hot season with confidence.

Peruna is a real tonic, with special efficacy in catarrhal conditions. Liquid or tablet form—whichever is most convenient—will safeguard your health.

The Peruna Company, Columbus, Ohio

MESSAGE TO THE DEFENSE COUNCILS

Members of State Council of Defense
Address Letter to All County Organizations

The following message to the county councils of defense is published by request of the members of the Nebraska State Council of Defense, whose names are signed to the message:

To the Officers and Members of the County Councils of Defense in Nebraska.

It is difficult to describe in an ordinary letter the duties of the County Council of Defense as organized in Nebraska. Every opportunity for rendering service to the country and bringing individual and community effort to the country's support will provide an important duty.

The County Councils comprise the four general officers and the election precinct chairmen. This council should meet as often as possible. For a time at least it should meet once each week.

In general the duty of the County Council is to arouse the people of its county to the importance and the purposes of this war, to carry on an educational campaign, having for its purpose increase in production of food, conservation in its use, and avoidance of waste in all things, to the end that Nebraska will be well fortified for any emergency which may arise.

For the reason that food production is the most important problem, the first duty of the County Council after organization should be the establishment of an enlistment bureau in every precinct in the county. At that bureau there should be registered the name of every man and of every strong boy, say above the age of fourteen years, who, not having enlisted for the firing line in the military field, is willing and able to enlist for the firing line in the field of production. An intelligent cultivation of a sentiment in every community that would regard every healthy idle man or boy as a slacker would go far toward impressing upon every individual his duty to his country. After these men have been enrolled in precincts a special committee appointed by the County Council should see to it that they are placed on farms or in some other productive work.

The exact details of the methods of the County Council must be left largely to the discretion of the officers and members of the council. Many helpful things will occur to the members of the County Council which have not occurred to the State Council, and suggestions from county councils will be gratefully accepted by the State Council.

From time to time special bulletins will be issued to the county councils suggesting the details of endeavor along particular lines.

In the meantime county councils will be expected to push the work in every precinct in their county so that every individual shall be impressed with these important facts:

In order that Nebraska may be thoroughly prepared to meet any emergency that may arise there must be:

A thorough awakening on the part of every individual as to the seriousness of this war.

Complete preparation in order to place the people of Nebraska, and all the resources of Nebraska, behind the federal government.

The most intensive and extensive system of production of food supplies which science and practical experience can devise.

An intelligent application of the principal of economy and conservation in individual and community life.

Avoidance of waste and the utilization of every bit of useful material.

Patriotic meetings in every community.

Co-operation on part of county councils with officials charged with the duty of enrollment under the selective draft.

Inquiry as to boys inclined to sea duty and encouragement for enlistment in the navy.

Encouragement for enlistment, particularly in the Nebraska National Guard, in order to bring it up to war strength as desired by the federal government.

Inquiry as to opportunities for rental of farms or vacant lands in the county.

Investigation as to local systems of distribution and marketing, particularly of perishable food products, and suggestions to shippers and dealers as to improvements to be made.

Encouragement for investment by all who have spare funds in the popular subscription to the government loan.

Faithful observation and care for the dependents of enlisted men to the end that they shall not lack for any of the comforts of life.

Observation of bridges, elevators, and all structures, particularly those essential to the public business and protection of the same from destruction by fire or otherwise.

Co-operation with the various civic and patriotic organizations now existing and forming to the end that they shall be given all possible encouragement and aid in the conservation of energies so that unnecessary duplication of effort shall be avoided.

Encouragement of subscriptions to the Red Cross fund and, wherever convenient, the organization of Red Cross chapters.

Inquiry into unwarranted or arbitrary increases in prices of food commodities, and efforts to persuade dealers in these commodities to give new concern for the general welfare.

Inquiry into reported hoarding and accumulation of food and discouragement of such practices.

Inquiry into quantity, quality and variety of all local industries, to determine how they may be made more productive and what is their possible maximum product in case of need.

Keeping all industrial activities at their greatest capacity.

Invitations to all commercial bodies, agricultural organizations, labor organizations, and all benevolent and fraternal organizations, as well as to individuals, to co-operate with the County Council in its efforts.

Co-operation with school boards and with school children to the end that even the little ones may feel the responsibility resting upon every individual in America.

A good motto to write upon the heart of every individual in your county is this: "Extravagance or inefficiency or idleness in war time is unpatriotic."

Above everything else remember that military experts have repeatedly said, "It is not unlikely that this war will be won on food." The farmer and producer being the most important part of this war, it will be a patriotic duty to help him in every way.

Immediately the County Council has been organized the names and postoffice addresses of its officers and members should be reported to the State Council. From time to time reports as to the line of work being carried on should be reported to the same authority.

We shall be grateful for any suggestions you or your associates may have to make to us. We shall give prompt attention to every communication we receive from you and will be obliged for similar care on your part.

Our respective duties in their broader and in their more detailed aspects will develop from day to day. We feel that the members of the County Councils, as well as the members of the State Council, are all to be congratulated upon the privilege of having entrusted to them the discharge of duties so important to the welfare of their beloved country.

LIVE STOCK PRICES AT SOUTH OMAHA

Fat Cattle in Active Demand;
Steady to 10¢ Higher

HOGS MOSTLY 5-10¢ LOWER

Supplies of Sheep and Lambs Fairly Liberal for This Time of the Year—Demand Not at All Urgent and Trend of Values Lower for Practically Everything in This Line.

Union Stock Yards, South Omaha, June 5, 1917.—Cattle receipts were very moderate for the opening of the week, only about 5,000 head, and both packers and shippers had good orders to fill. The market ruled active with prices anywhere from steady on the general run of beef to a dime higher on choice grades of all weights. Strictly choice heavy beefs brought \$13.30 and choice yearlings \$12.50. Cows and heifers were steady to strong and the feeder trade quotably steady.

Quotations on cattle: Good to choice beefs, \$12.50@13.35; fair to good beefs, \$11.75@12.25; common to fair beefs, \$10.25@11.50; good to choice yearlings, \$11.85@12.85; fair to good yearlings, \$11.00@11.75; common to fair yearlings, \$10.00@10.75; good to choice heifers, \$10.25@11.25; good to choice cows, \$9.75@10.75; fair to good cows, \$8.75@10.00; canners and cutters, \$8.50@8.50; veal calves, \$10.00@14.25; beef bulls, \$8.00@10.75; prime feeding steers, \$10.00@11.00; good to choice feeders, \$9.25@10.00; fair to good feeders, \$8.50@9.25; good to choice stockers, \$9.50@10.50; fair to good stockers, \$8.75@9.50; common to fair grades, \$7.00@8.50; stock heifers, \$8.25@10.50; stock cows, \$7.00@10.00; stock calves, \$8.50@11.00.

Hog Values Show Decline.

A rather liberal run of hogs showed up for a Monday, about 7,000 head, and prices ranged from nearly steady to 5¢ to 10¢ lower than Saturday. Early trade was active, but the market closed very weak with a few unsold. Tops brought \$15.00 and the bulk of the trading was around \$15.20@15.50, or about 15¢ to 20¢ lower than a week ago.

Very Uneven Market in Sheep. Receipts of sheep and lambs were around 5,500 head and considering the fact that they had very few fleeces they sold at very close to steady figures. Demand was not very urgent, however, and the trend of values lower for nearly everything in this line.

Quotations on sheep and lambs: Lambs, shorn, \$14.25@15.00; spring lambs, \$16.00@18.00; spring lambs, culled, \$10.00@15.00; lambs, feeders, \$12.00@14.75; yearlings, shorn, \$11.00@13.75; wethers, shorn, \$11.50@12.75; ewes, shorn, \$10.50@11.75; ewes, culled, shorn, \$8.00@10.00.

Essentials to Achievement.

There are five essentials to achievement in every line: Vision, initiative, sound judgment, confidence, and courage. And each of these qualities is inspired and fostered by knowledge.—The Business Philosopher.
